Mission Statement

Chengdu International School provides a quality college-preparatory education for international students in Chengdu. Our goal is to prepare students to realize their full potential in academics, character, truth, and service – in order to meet the challenges of an ever-increasingly complex multicultural world.

Teaching Philosophy

Teaching expat students in a foreign country with teachers from around the world requires a clear frame of reference, criteria, and values agreed upon by all parties involved. Our teaching philosophy provides stability, continuity, and long-term guidance, for staff, students and parents.

Parent Responsibility

Lifelong Learning

We believe in providing an education based on Christian principles and open to all students irrespective of race, sex, color or religious background. Our curriculum is intended to prepare students for active involvement in our contemporary, multicultural society, and to equip them with tools for shaping the future.
